

7th Grade

Friday, April 30th - Read pg. 11. List the parts cells have in common. Tell what each part does for the cell. Approx. how many cells are you made of?

HOMework FOR WEEK OF MAY 3RD

PJAS PARTICIPANTS - You must bring in your transparencies and speech guide cards on Wednesday, Thursday, or Friday at 7:40AM or stay after school on any of these days this week to practice your PJAS presentation. You will need to stay any day Tuesday through Friday after school next week to practice again. If you do not come in for practice one day **BOTH** weeks, you will practice with me or your chaperone on Sunday after you arrive at Penn State. We are not having a ROUND ROBIN session before State Meeting.

Monday, May 3rd - Study notes. Gather 10 pieces of colored paper (can be construction paper, tissue paper, gift wrap, etc.) You need at least 2 sheets of paper the size of notebook paper, one of which must be a dark color. News review due Thursday

Tuesday, May 4th - News review due Thursday. Get tests signed

Wednesday, May 5th - Make sure you have 10 colors of paper for a cell project. Begin cell project: Boys will each make a plant cell and girls will make an animal cell. Put parts explained in class on project. Put function of parts on a key. Follow directions given in class. **News review due tomorrow.**

Thursday, May 6th - Put parts explained in class on project. Put function of parts on a key. Follow directions given in class. Study Test next week

Friday, May 7th - Put parts explained in class on project. Put function of parts on a key. Follow directions given in class. Study Test next week
